

ECLIPSE / FIVE-STAR LIFETIME WARRANTY

LIMITED WARRANTY

THE FIVE-STAR WARRANTY:

EMCO Building Products Corp., warrants to the owner of the property on which BP ECLIPSE shingles are installed that the shingles are free from manufacturing defects which may result in water leakage during the warranty period, subject to the conditions and restrictions set out below. In addition to the coverage provided by the Five-Star Limited Warranty program, owners installing ECLIPSE shingles may also qualify for the exclusive Five-Star Lifetime Limited Warranty, subject to the conditions set out below.

WHO MAY BENEFIT FROM THE FIVE-STAR WARRANTY?

The owner who installs BP ECLIPSE shingles on his property located in Canada or the United States or who has them installed and any subsequent owner of the property, as this warranty is fully transferable.

WHAT IS THE WARRANTY PERIOD?

The warranty period for ECLIPSE shingles starts on the date the installation of the shingles is completed, and lasts for 35 years, or for the lifetime of the owner, if the Lifetime Warranty conditions as set out below are met. The warranty period for Hip & Ridge shingles corresponds to the warranty of the Eclipse shingles installed on the rest of the roof.

UP-FRONT COVERAGE PERIOD

If a manufacturing defect appears during the first ten (10) years following installation of the ECLIPSE shingles ("the up-front coverage period"), EMCO will, at its option,

- (a) repair or replace, at its own expense the defective shingles and any BP eave protection and BP underlayment that may have been installed, or
- (b) pay to the owner the cost of repair or replacement of the defective shingles, according to EMCO's reasonable estimate at the time of the claim.

If a manufacturing defect appears after the end of the "up-front coverage period" EMCO will pay to the owner of the property the repair or replacement cost of the defective shingles and any BP eave protection and BP underlayment that may have been installed, according to EMCO's reasonable estimate at the time of the claim, reduced proportionally by the number of years elapsed since installation of the ECLIPSE shingles, as set out in Table "A".

The warranty coverage for shingles which are repaired or replaced under warranty corresponds in all cases to the remainder of the warranty period and balance of coverage applicable to the shingles being replaced.

Note: Whenever possible, EMCO will replace defective shingles with shingles of the same color. However, because color variations exist between shingles manufactured at different times and because EMCO may discontinue or modify colors, EMCO reserves the right to replace defective shingles with shingles of the nearest color.

EMCO will not be responsible for differences in color between replacement shingles and others not replaced, if those differences are caused by weathering.

EXTENDED WARRANTY

Prior to the installation of new BP shingles, BP eave protection and BP underlayment, the property

owner can purchase an extended warranty for an additional 5 years, including the wind warranty period. The cost is only \$2.00 per bundle (minimum fees of \$150 applicable). To qualify for the extended warranty coverage the application of BP shingles must be done in accordance with specific application requirements. To purchase the extended warranty please visit our Web site at www.dreamroofs.com or contact our Help Line by dialing 1 800 567-2726. Extended warranties are available for all shingles except for those with 20 years warranty.

FIVE YEARS LIMITED WIND WARRANTY

EMCO Building Products Corp. warranty its shingles to resist blow-off or damage due to wind velocities, including gusts, up to 175 km/h (110 mph). To benefit from the high wind warranty, all shingles must be fastened with 6 nails, and all shingles must be hand tabbed. The shingles located at the roof edges must be adhered in a thin 4 inches wide layer of plastic cement. When shingles are installed using 4 nails without cement, the wind warranty shall be 115 km/h (70 mph). If due to manufacturing defect (but subject to the limitations set out below) sealed shingles are blown off or damaged by winds within this speed limit, EMCO Building Products Corp. will at its option reimburse you for the reasonable cost of replacing the blown-off or damaged shingles and/or hand-sealing remaining shingles, as required. Data from Environment Canada and/or the National Weather Service will be used to verify wind and gust speeds. **This warranty is in effect for a limited period of five (5) years following the date of installation of the shingles and is separate from EMCO's standard limited warranty otherwise applicable to the shingles.**

Self-sealing shingles contain self-sealing adhesive strips that must be exposed to sufficient surface temperatures before full thermal sealing can occur. Shingles installed in the fall or winter may not seal until they are exposed to such periods of sufficient surface temperatures. In addition, contamination of the self-sealing adhesive by dust or foreign matter may prevent the sealing strip from achieving a full thermal seal. Prior to sealing, shingles are more vulnerable to being blown-off or incurring wind damage.

This warranty is applicable only where the self-sealing adhesive strips have achieved full thermal seal and the shingles have been properly installed in light of the conditions of the roof and the environment.

LIMITATION OF IMPLIED WARRANTIES

The duration of any implied warranties including, without limitation, implied warranties of merchantability or implied warranties of fitness are expressly limited to the duration of the warranty period applicable to the particular shingles installed. Some Canadian provinces and U.S. states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

WHAT STANDARDS MUST BE MET FOR THE WARRANTY TO BE VALID?

To benefit from the Five-Star Eclipse Lifetime Warranty, the following standards have to be met:

- (a) the shingles must be installed in accordance with EMCO's published application instructions;
- (b) the roof and each part of it must be designed and built in accordance with local and applicable National Building Codes. All roof structures must be provided with through ventilation and the deck over which the shingles are installed must meet minimum building code requirements. Where local building codes have specific requirements which differ from National Building Codes, the more stringent requirement must be followed.

LIFETIME WARRANTY

For eligible owners and properties, ECLIPSE shingles are warranted for the lifetime of the owner from the date of installation, according to the terms and conditions set out in this section. The terms and limitations of the Five-Star Limited Warranty also apply to all matters not specifically dealt with under these Lifetime Warranty provisions.

WHAT ADDITIONAL REQUIREMENTS MUST BE MET TO QUALIFY FOR THE ECLIPSE LIFETIME WARRANTY?

The Five-Star ECLIPSE Lifetime Warranty covers individual owners who apply ECLIPSE shingles to their single-family home, provided they are sole owner of the home and that it serves primarily as the owner's residence. Commercial and industrial buildings, condominiums, multi-occupant buildings, health care institutions, residential schools, religious institutions and other buildings which are not used principally as the residence of the owner and his family are not eligible, and only individual owners are eligible, to the exclusion of companies, corporations, partnerships, trusts, estates and properties owned by more than one individual.

At the end of 29 years, the Five-Star Warranty on ECLIPSE shingles will reach 20% coverage as shown on Table "A". Under the Lifetime Warranty, coverage will then continue without further reduction, for the lifetime of the owner. If ownership of the home is transferred at any time, the Lifetime Warranty will cease to apply and the Five-Star ECLIPSE warranty will apply thereafter for the remainder (if any) of the 35-year ECLIPSE Five-Star Warranty period, as shown on Table "A".

(The Lifetime Warranty does not constitute and should not be interpreted as a statement or representation as to the durability of ECLIPSE shingles.)

EXCLUSION OF CONSEQUENTIAL DAMAGES

EMCO HEREBY EXCLUDES COVERAGE OF ALL CONSEQUENTIAL DAMAGES OF ANY KIND RESULTING FROM THE BREACH OF THIS WARRANTY OR FROM ANY FAILURE TO PERFORM UNDER THE TERMS OF THIS WARRANTY INCLUDING, WITHOUT LIMITATION, ANY DAMAGE TO THE EXTERIOR OR INTERIOR OF THE BUILDING UPON WHICH THE SHINGLES WERE INSTALLED OR TO THE PROPERTY CONTAINED THEREIN, ANY INJURIES SUSTAINED BY ANY PERSON OR ANY ECONOMIC LOSSES, COMMERCIAL LOSSES, LOSS OF TIME, LOSS OF USE OF THE BUILDING OR INCIDENTAL CHARGES SUCH AS TELEPHONE, TRAVEL OR LODGING EXPENSES. SOME CANADIAN PROVINCES AND U.S. STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

WHAT IS NOT COVERED?

The following are not covered by the Five-Star ECLIPSE Lifetime Warranty and, as such, EMCO will not at any time be liable for:

- (a) any property damage, physical injury or economic loss resulting, directly or indirectly, from a manufacturing defect in the shingles;
- (b) any damage to the shingles caused by gales, lightning, hurricanes, tornadoes, hailstorms, earthquakes, Acts of God, fortuitous events or force majeure;
- (c) any damage to the shingles caused by the settlement, distortion, failure, cracking or movement of the roof deck, walls or foundation of the building, as well as flashings or metal work;
- (d) any damage to the shingles caused by transport, misuse or improper handling or storage of the shingles;
- (e) any damage to the shingles caused by traffic on the roof or by impact of foreign objects;
- (f) any damage to the shingles caused by work performed on or to the roof;
- (g) any damage to the shingles caused by the failure to install the shingles using BP cements or equivalent cements that meet applicable CAN/CGSB or ASTM standards;
- (h) appearance problems related to multiple layer installation (application over old shingles), such problems being typical of this type of installation;
- (i) any claim which has been settled by way of a cash payment pursuant to this warranty; and
- (j) discoloration due to algae growth.
